Age 18 or over? Think you can't afford a new car with all the associated running costs? Think again.....

We all know that new cars have more technology, are safer, more reliable, and more economical to run. However, the cost of financing and insuring a new car is often expensive, especially for younger drivers. But not anymore....

Peugeot's unique Just Add Fuel® finance package has just got even better. It is now available on selected New 208 models for customers **from the age of 18**, with the addition of a telematics box.

18-year olds can be either the policy holder, or a named driver on a parent's insurance policy, depending on who is the main driver of the car. A further additional benefit of Just Add Fuel® is the opportunity for customers without No Claim Discount to take advantage of Just Add Fuel®, on New 208.

For **one simple monthly amount**, Peugeot will take care of all the complicated stuff like servicing, warranty, car tax, breakdown cover and even **comprehensive motor insurance for a full three years**. We'll give you everything you need to get on and stay on the road. And you might be surprised to find out just how little it costs.

Here's what's included in a Just Add Fuel® monthly cost:

- **3 Years comprehensive Motor Insurance***
- **3 Years Servicing**
- **3 Years Breakdown Cover**
- **3 Years Car Tax^f**
- **3 Years Warranty**

New 208 is now available with low rate 0% APR REPRESENTATIVE

Finance your New 208 with our unique Just Add Fuel® package and we'll contribute £500 towards your deposit.

Benefits of Just Add Fuel®

- A single monthly payment to cover all motoring costs and the car
- No need to budget for insurance, servicing, road fund licence and roadside assistance - its all included!
- No need to search for the cheapest insurance every year
- Fixed price motoring for three years gives peace of mind

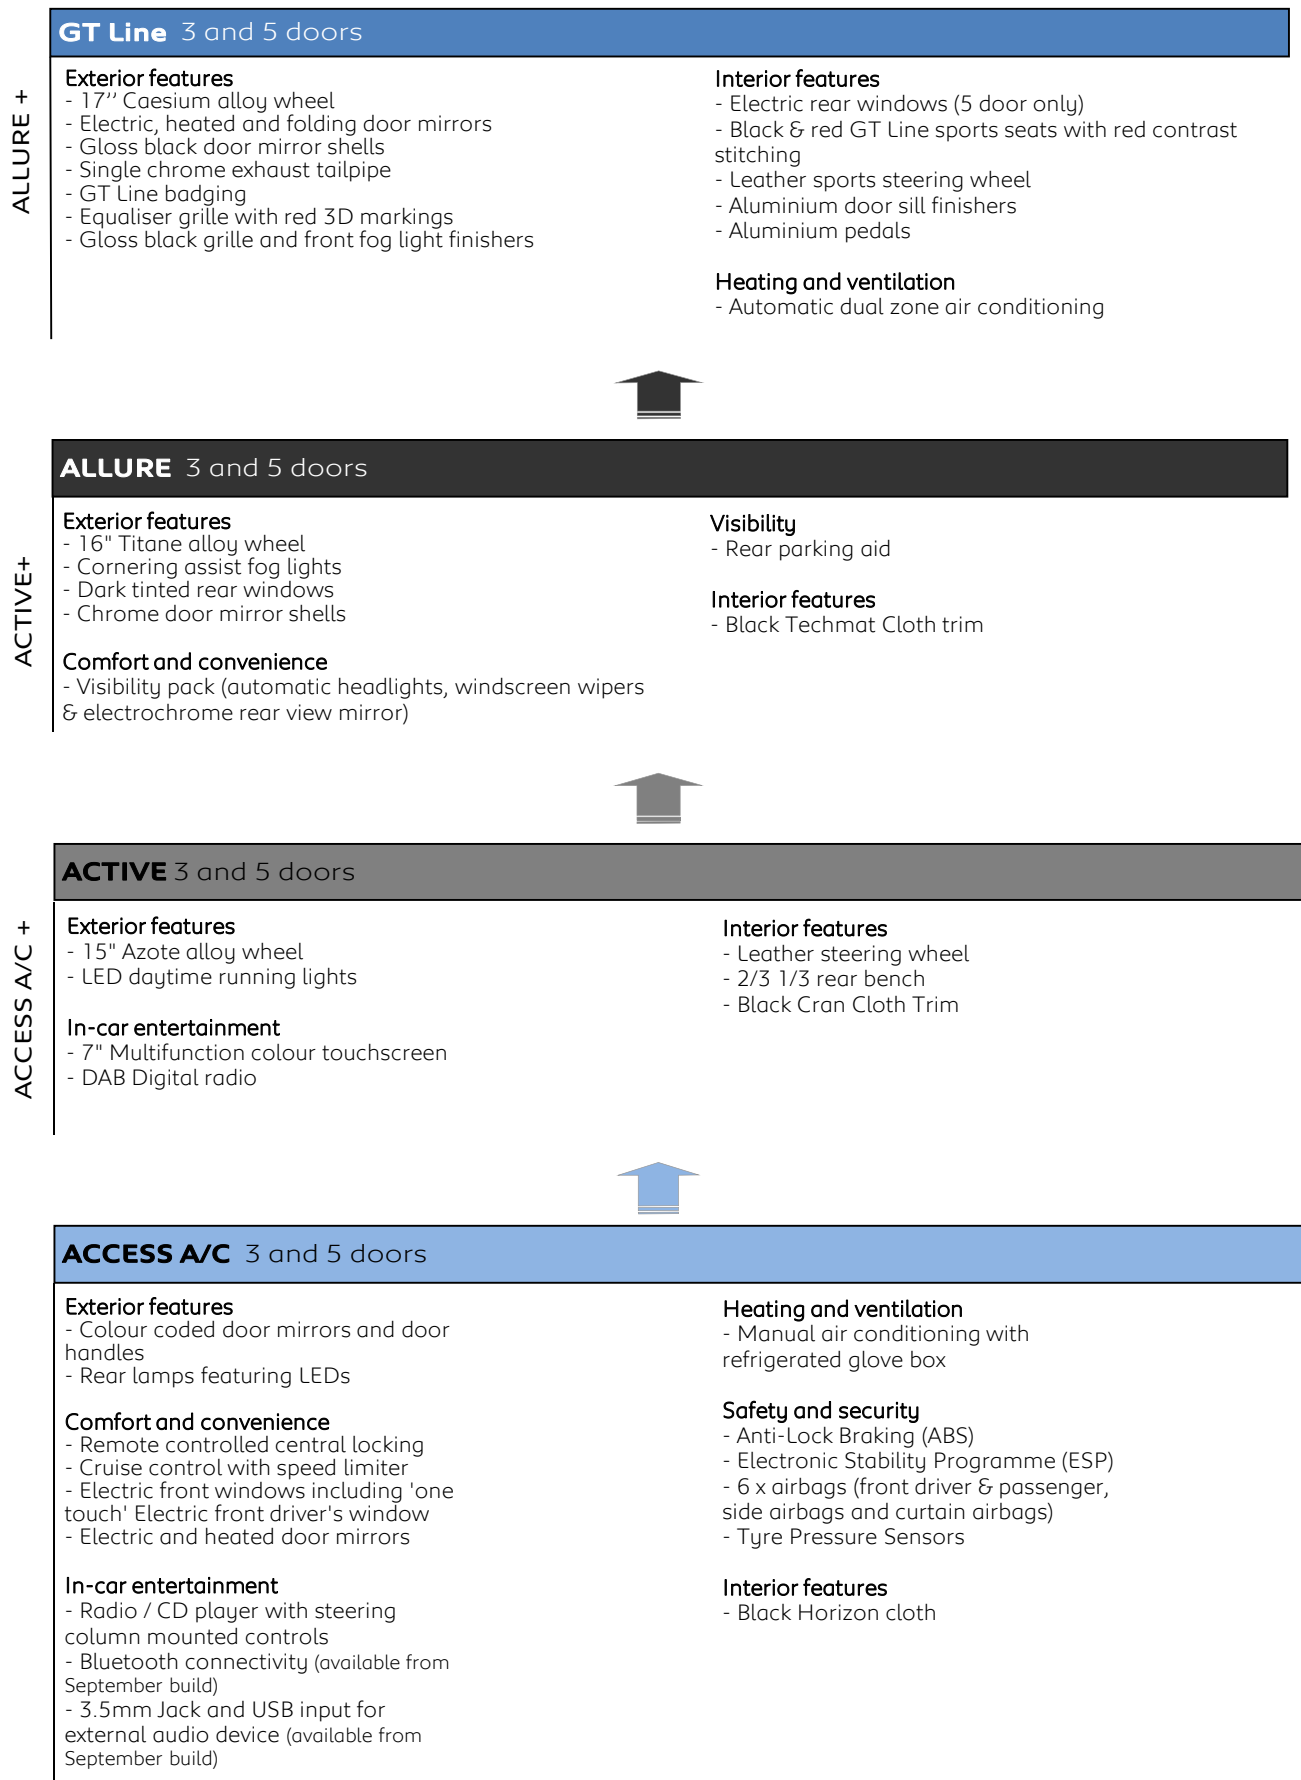

A New 208 with Just Add Fuel® means freedom to travel and independence. Go where you want, when you want, all for one easy monthly payment.

3.1 TECHNOLOGY PAGE

PureTech Petrol Engines

Designed for drivability and performance, PureTech Petrol engines combine efficiency with cutting-edge technology.

They take the best that the market has to offer and find the perfect balance between torque and power at low revs. This advance in technology generates savings in fuel consumption and reduces CO₂ emissions compared to a vehicle with equivalent power and torque.

Combined with the new automatic EAT6 gearbox, the 1.2 PureTech 110 EAT6 S&S turbo version emits CO₂ emissions of only 104 g/km, making it the benchmark for automatic petrol engines in the segment.

The New 208's 1.2L PureTech 110 engine was awarded 'International Engine of the Year 2015' in the 1.0L to 1.4L category by a panel of 65 industry experts.

Reversing Camera / Rear Parking Aid / Park Assist

The reversing camera automatically activates when you select reverse gear and lets you view the area behind the car as you manoeuvre. It comes with rear parking aid as standard but can also be ordered with Park Assist for added safety and convenience.

The Park Assist system assesses the space available to ensure that your car will fit. Ultrasonic sensors and steering management take over to manoeuvre in and out of the parking space for you.

Acceleration, braking, gear changes and use of the clutch in a manual transmission are left in your control. As you manoeuvre, the system gives you visual and audio information to ensure your safety.

Peugeot Connect SOS & Assistance

Peugeot Connect SOS is now in use in most major European countries, including the UK, and is technology that could prove vital in an emergency.

Automatic emergency call: if the airbags inflate or the seat belt pretensioners are triggered, the vehicle automatically makes an emergency call on behalf of the driver. Peugeot Connect SOS then locates the vehicle, establishes telephone communication with its occupants and arranges for the appropriate emergency service to be dispatched.

Manual emergency call: whether the victim or the witness of an emergency situation, the driver can call Peugeot Connect SOS quickly by pressing the SOS button located on the dashboard (and holding for 3 seconds).

BlueHDi Diesel Engines

BlueHDi engines combine high performance, impressive fuel economy and low CO₂ emissions.

Every diesel version of the New Peugeot 208 emits under 95 g/km of CO₂ and achieves up to 94.2 mpg on a combined drive cycle.

This market-leading range of 1.6 BlueHDi diesel engines is also available with Stop & Start technology.

Active City Brake

Active City Brake is a new technology which makes it possible to avoid an accident or reduce its severity if the driver fails to react.

It works in urban conditions at speeds of less than 20 mph. A short range sensor is fitted to the top of the windscreen and can detect other vehicles that are driving in the same direction or stationary.

This will automatically trigger an emergency brake to stop the vehicle and avoid a collision entirely or limit the consequences of an accident by reducing the speed of impact.

7" Touchscreen & Satellite Navigation

Perfectly positioned, the 7" touch screen gives you access to a wide range of functions, including music streaming, USB connectivity and hands-free Bluetooth calling.

Plus, the interactive and easy to use Satellite Navigation system will take the stress out of any journey*.

*Standard, optional or unavailable according to version.

Peugeot Connect Apps

In New 208 models with a touch screen (Active and above), you have the option to purchase a Peugeot Connect Apps USB key, which houses 3G connectivity, a GPS receiver and storage for the built in software interface and applications (apps).

Simply insert the key into the USB socket in your car. Peugeot Connect Apps is accessed and controlled via the Connected Services menu on your car's touch screen.

The apps, including driving aids and live traffic, parking and POI information, are accessed by simply touching the corresponding icon - exactly as you would with your smartphone.
